

## What is the Scottish Broadband Voucher Scheme?

The SBVS has been designed to ensure that every address in Scotland has the ability to access a superfast broadband connection by the end of 2021. There are currently two different subsidies and either of these can (in some circumstances) be combined with the UK Gigabit Broadband Voucher Scheme, providing even more funding. The SBVS provides funding through vouchers to connect rural homes and businesses with superfast broadband.

### WHO CAN BENEFIT?

This scheme is ideal for resellers and WISPs in Scotland and their customers.

### What's on the table? Could be up to £8,500 funding.

A voucher worth up to **£5,000** to help deliver a permanent broadband connection where there is no roll-out of superfast broadband planned as part of the R100 project.

*In some cases, it may be possible to combine Scottish Government funding with the UK Government's Gigabit Broadband Voucher Scheme (GBVS) which provides £1,500 for rural homes and £3,500 for rural businesses.*

## Why should you consider marketing this scheme?

### Proven Success

This scheme has helped many resellers just like you to uncover new opportunities - it's a proven successful tactic for new revenue generation.

### Another Tool

Another tool in the box. Understanding what you and your end-users are entitled to, allows you to get ahead of the curve before your competitors.

### Opportunities

Finding new opportunities is challenging. Count on Purdicom & Siklu for the best-supported offering & technology to win more business.

### Direct Funding

The funding is paid directly to you. Agree on the scheme with your customer - you are reimbursed for the equipment as soon as it's deployed.

# Scottish Broadband Voucher Scheme Overview

SUPPORTING YOUR BUSINESS GROWTH

# Siklu

## Why Siklu?

Siklu is fibre through the air. Many providers already taking advantage of this programme are only able to install fibre. Siklu provides something different. Something much better. Connect wirelessly with Siklu and deploy in days without the need to dig trenches or lay cables. It couldn't be any quicker, cleaner or easier, especially when fibre is just not an option.

It's a gigabit world.

Let Siklu take you further.

Siklu has developed a complete portfolio of mmWave solutions to deliver fibre performance wirelessly. Couple this groundbreaking technology with the support you'll receive from Purdicom, and you have everything you need to grow your business using the Gigabit Broadband Voucher Scheme.

SIKLU is the only wireless provider with technology recognised as compliant on the U.K. Gigabit Broadband Voucher scheme - Dept. Digital, Culture, Media & Sport (DCMS).

## How Can Purdicom Help You?

Do you need support with marketing to grow your existing business through this scheme or perhaps you'd like our support with sales collateral you can take to market? We're here to help. [Contact us on 01488 647 647](tel:+441488647647)

Purdicom can support you across our portfolio of value-add and professional services, so if it's link planning and network design, sales support or warehousing and logistics that you need - we've got you covered.
